

A close-up, low-angle shot of the Statue of Liberty's head and crown, set against a large, waving American flag. The lighting is dramatic, with strong highlights and deep shadows, giving the scene a sense of grandeur and patriotism. The colors are slightly desaturated, with a strong blue and red palette.

Wisconsin Taxpayer Protection Amendment!

On March 13, 1848, the people of Wisconsin ratified a Constitution that proclaimed: *“The blessings of a free government can only be maintained by a firm adherence to justice, moderation, temperance, frugality and virtue, and by frequent recurrence to fundamental principles.”*

Our founders — who cherished frugality — never imagined our state would have the nation’s fifth highest taxes. Taxes that hurt job growth and thwart prosperity.

It’s time for a “recurrence to fundamental principles” of smaller government, and lower taxes. It’s time for the Wisconsin Taxpayer Protection Amendment, to restore frugality to government in Wisconsin.

It’s time to let the people decide! If approved by the Legislature, the amendment would go to the voters. The voters would get a chance to amend the constitution to put caps on taxes and require tax cuts once for all.

It’s time to take control of our taxes, our economy and the futures of our families. Tell your Senator to support the Wisconsin Taxpayer Protection Amendment!
