## Wisconsin's Leader in Workplace Safety Training & Programming

# Coaching the Lift Truck Operator II™ Training Materials and Courses Available from Wisconsin Safety Council

The Wisconsin Safety Council's *Coaching the Lift Truck Operator II™* helps you avoid fatalities and severe injuries and their related costs, we've updated the content to provide you with the most current information and guidelines available. Operators familiar with the mechanics of operating a lift truck are ready for the next step in training with *Coaching the Lift Truck Operator II™*. Utilizing the highly acclaimed "Coaching" method of non-lecture teaching, this information-packed classroom course encourages participants to observe, analyze and discuss recommended safety practices.

Based on requests from safety directors, the course also includes a DVD presentation for in-plant personnel who do not drive lift trucks, but who work in areas where lift trucks are operated.

The program offers instructors the tools necessary to meet OSHA's new requirements for formal instruction, practical training and evaluation. Each component of the course relates directly to the others, forming a comprehensive, integrated system of training. The program's format allows for flexibility in presentation and local job site customization to cover specific company policies.

### WHAT YOU RECEIVE:

- Operator and pedestrian DVD presentations
- Full color 32 page Response Book for participants with new analyses, certificate and wallet card
- Sixteen discussion diagrams including DVD version in Leader's Guide allowing instructor to make black/white overhead transparencies
- Two written tests for participants
- Video test for participants
- Leader's Guide
- Additional background information for the instructor
- Guidelines for making the course site-specific
- Inspection guidelines for sit down, standup and powered pallet trucks
- Three different tests: New video test, new test-combination of multiple choice and open ended questions (based on site specific needs) and true/false test.
- Fulfills the OSHA requirement for formal training, practical training and evaluating the operator
- Sample inspection checklist
- Sample operator evaluation form

*Even if you have never taught before, our fully scripted Leader's Guide and videos will have you teaching the course like a pro. There are two easy ways to get started:*

- **ATTEND A ONE-DAY TRAIN-THE-TRAINER WORKSHOP** taught by an experienced instructor and receive your complete Instructor's Kit with registration (*see course dates on back of page*).
- **BUY** the packaged **Instructor Kit** and begin training your employees immediately.

SAME CONTENT AND QUALITY... NOW AVAILABLE IN SPANISH!

### ABOUT THIS COURSE

A one-day train-the-trainer seminar prepares you or your designated trainer to teach the Wisconsin Safety Council's comprehensive training program, *Coaching the Lift Truck Operator II™*.

### WHAT YOU'LL LEARN

- OSHA Powered Industrial Truck Standard 1910.178 compliance
- How to evaluate operators' performance
- How to educate non-operators about working safely around powered industrial trucks
- How to teach safe procedures and maintenance

### COURSE MATERIALS PROVIDED

Instructor's guide, written tests, registration forms, inspection and performance checklists, OSHA Standard information, operator DVD covering safe operation, DVD for non-operators working around lift trucks.

### SCHEDULE

Registration/Networking: 8:30 - 9:00 a.m.  
Course: 9:00 a.m. - 3:00 p.m. (lunch is included)

### WHO WOULD BENEFIT

Lift truck operator trainers, lift truck operators, warehouse/shipping/receiving managers, construction site managers, safety managers, safety committee members, operations managers, loss control managers, and human resources managers.

### REGISTRATION FEE

Members: \$399 • Non-members: \$499 • Each additional representative from same company or students attending for a Refresher Course: \$150.

Payment of full tuition includes full training kit with DVD, and leader's guide.

Additional attendees from the same company or those attending as a refresher course will attend at a reduced rate and receive only the leader's guide.

### CEUs

This workshop carries .50 Continuing Education Units (CEUs) from the Wisconsin Safety Council. Certificates will be awarded upon completion of the course.

## Order Your Products and Register Today!
