TRAIN WITH US...

YOU'LL BE IN GOOD COMPANY

Each year, the Wisconsin Safety Council trains thousands of employees through scheduled and customized training services.

KEEPING WISCONSIN WORKERS SAFE

When you join the Wisconsin Safety Council, you are backed by the full force of the National Safety Council.

WISCONSIN SAFETY COUNCIL IS A PROGRAM OF THE WMC FOUNDATION AND IS THE STATE'S LEADING PROVIDER OF SAFETY TRAINING AND PRODUCTS.

501 E Washington Ave
Madison, WI 53703

DIRECTOR'S CORNER

The Wisconsin Safety Council was founded in 1923 with the mission of saving the lives of Wisconsin workers. We are the state's leading provider of safety training and programming. We are the reason more people come home safely from manufacturing plants, offices and construction sites every day. And we are proud to be a program of the WMC Foundation.

The Wisconsin Safety Council is the official state chapter of the National Safety Council. Whether starting from scratch or updating an existing safety program, WSC can provide you with access to all the resources you need to prevent injuries, costly claims, increase productivity and stay competitive.

Stay Safe,

Janet Metzger
Executive Director

ANNUAL SAFETY & HEALTH CONFERENCE/EXPO

Every year, the Wisconsin Safety Council hosts one of the Midwest's largest safety and health conferences. This event attracts over 1,500 of Wisconsin's finest safety and health professionals, including those involved in insurance, risk management, facility management and more. Over the course of three days, there are more than 55 learning sessions, 10 professional development courses and 200 exhibitor booths to visit in the expo hall.

CUSTOM PRIVATE TRAINING

Professional instructors are available for training at your facility. Invite your staff and perhaps others from your community to participate. We handle all the details – from finding the instructor, to handling the registrations. Customized programming allows you to personalize your training. Call us to find out how we can save you money on your bottom line and stay in compliance.

ANN MULVANEY
SAFETY REPRESENTATIVE
JOHN DEERE HORICON WORKS

"The Wisconsin Safety Council provides many learning opportunities on topics that relate to my safety role and the industry in which I work. I have worked for my current employer for over 15 years; however, I only entered the Safety field about five years ago. During the past five years, I have attended the annual safety conferences in the Dells and achieved my Advanced Safety Certification. The courses offered have definitely improved my safety knowledge and skills. What has impressed me the most is the application of the course work directly correlates to improvement of employee safety at my workplace."

RYAN MARTIN
CORPORATE SAFETY DIRECTOR
GRASSLAND DAIRY PRODUCTS, INC.

"I have been looking for a "good" worker's compensation seminar since I stepped into the world of safety several years ago... I sat through the best WC seminar I've ever seen. This was honestly what I've been looking for. This seminar was very well taught by [presenters]. This seminar has the perfect level of content for all levels of WC knowledge. I feel that whether you've never dealt with WC or are a seasoned veteran; this symposium has something for everyone. The Workers Compensation Law Handbook that comes with the course is fantastic... Thank you so much for being such a fantastic example and champion of safety for Wisconsin!!"

TODD TESKE
CHAIRMAN, PRESIDENT, & CEO
BRIGGS & STRATTON CORPORATION

"My employees' safety is a top concern for me, and I believe safety is an important part of everyone's job. The educational programs through the Wisconsin Safety Council arm our people with valuable safety information they can share with the rest of our team."
